KIMPORT

Milyen beszállítók termékeit tartalmazza a Kimport katalógus?

500+ válogatott kínai gyártó termékeiből összeállított termékkatalógus. A beszállítók nem az aktív vagy korábbi ügyfeleink beszállítói, hanem a következő nagyvállalatok (aktív vagy korábbi) beszállítói (kékre kattintva a forrás): LIDL (DE), ALDI (DE), KMART (AU), JOHN LEWIS (UK)
A forrásokon összesen közel 3000 kínai gyártó cégnevét találjuk. Ezen cégek hátterét leelenőriztük (így), és az 1000 általunk legjobbnak (legkisebb kockázat) ítélt vállalattal felvettük a kapcsolatot. Ezek közül 513 volt nyitott az együttműködésre. Ezen válogatott beszállítók termékeit tartalmazza ez és a többi Kimport katalógus.

Ár? MOQ? Gyártási idő? CE?

A termékek az esetek 99%-ában nincsenek készleten! A gyártási idő beszállítónként és termékcsoportonként változik! A rendelhető minimum mennyiségek beszállítónként és termékcsportonként eltérőek, az árak pedig a gyártási kapacitás, alapanyag árak és árfolyam (USD/RMB) ingadozása miatt változnak, ezért minden esetben egyedi ajánlatot kell kérni! A termékek nagy részéhez van érvényes CE certifikát, de nem minden esetben, viszont megfelelnek a CE sztenderdeknek. Egyes esetekben elképzelhető, hogy külön kell CE-t csináltatni!

Szállítás?

Korlátlan mennyiségű beszállítótól (minden oldalon bal alul található az adott beszállító kódja) lehet rendelni és konszolidáljuk a rendelést úgy, hogy egy (vagy minél kevesebb) rendelésként lehessen kezelni az importfolyamat során. Segíti az ügymenetet, amennyiben egy beszállítótól minél több terméket választunk, és összesen minél kevesebb különböző beszállítótól vásárolunk. Shenzhen, Ningbo, Qingdao, Jinhua és Xi'an városokban is rendelkezünk olyan raktárral ahol az áruk konszolidációját és feladását, igény szerint további címkézési műveleteket végre tudunk hajtani.

Mennyibe kerül ez?

Díjunk az SKU-k száma, áruérték és a kiválasztott beszállítók mennyiségétől függ, jellemzően az áruérték 3-6%-a.

Vámkezelésben, betarifálásban, előzetes szállítási díj kalkulációban is állunk rendelkezésükre, tehát segítünk megállapítani az egy termékre eső megközelítő beszerzési árat (a szállítási díjak előzetesen nem határozhatóak meg 100% pontossággal).

Árajánlatkéréshez kérjük megadni a beszállító kódját és amennyiben van a termékkép mellett termékkód, úgy azt is megjelölni!

- 5420# copper motor,220~240V 50/60Hz 150W.
- Touch control panel, stainless steel housing
- coffee powder container and brush included.
- Overheating and power failure automatic reset protection;
- 30 grinding thicknesses are optional to meet different coffee needs;
- The 2-stage reduction planetary gear transmission outputs 500PRM, which reduces the heat generated by friction and maintains the original flavor of coffee.
- Motor silicone anti-vibration pad, increase stability and reduce vibration
- sus420 stainless steel Italian conical grinding cutter head
- Anti-static design, coffee powder is not easy to splash

Glass Electric Kettle Series

High borosilicate glass is a special glass material with low expansion rate, high temperature resistance, high strength, high hardness, high light transmittance and high chemical stability. It is made by heating the glass inside to achieve melting and then processed by advanced production technology. The glass contains a high content of boron and silicon, which are respectively 12.5-13.5% and 78-80%, so this type of glass is called high borosilicate glass. It belongs to PYREX glass in borosilicate glass. It has excellent acid resistance, alkali resistance and water resistance, good thermal stability, chemical stability and electrical properties, so it has the characteristics of chemical corrosion resistance, thermal shock resistance, good mechanical properties and high temperature resistance.

Here are the physical and chemical properties of high borosilicate glass:

- Strain temperature: 520 degrees Celsius
- Annealing temperature: 560 degrees Celsius
- Softening temperature: 820 degrees Celsius
- Thermal shock resistance: 200 times
- Water resistance (ISO 719): Grade 1
- Acid resistance (ISO 195): Grade 1
- Alkali resistance (ISO 695): Grade 2

360°
360-degree rotating base
Cordless design

Permanent stainless steel filter screen filters scale more hygienically

Automatic power-off function when water boils

100°C
Waterless anti-dry burning function, overheat protection function

Double-layer structure of the kettle body, thermal insulation and anti-scalding design.The surface temperature does not exceed 60°C, so it won't burn you even if you accidentally touch it.

Stainless steel Electric Kettle Series

Food-grade stainless steel refers to metal materials that meet the requirements of GB4806.9-2016. Stainless steel will not dissolve various alloys and harmful metal materials during the process of using acid and alkali in food production. In metallurgy, stainless steel refers to alloy steel with high chromium content that is inert, corrosion-resistant, and rust-free in corrosive media such as air, acid, alkali, salt, etc. It usually contains elements such as nickel, molybdenum, vanadium, manganese, tungsten, etc. The most important metal element that determines the rust resistance of stainless steel is chromium. Internationally defined by weight, stainless steel is an alloy steel with a minimum chromium content of 10.5wt% and a maximum carbon content of 1.2wt%, or an "iron alloy" with a chromium content exceeding 10%.

The specific physical and chemical properties are as follows:

- Chromium (calculated as Cr), mg/L in 4% acetic acid soaking solution ≤ 0.5
- Cadmium (calculated as Cd), mg/L in 4% acetic acid solution ≤ 0.02
- Nickel (calculated as Ni), mg/L in 4% acetic acid soaking solution ≤ 3.0
- Arsenic (calculated as As), mg/L in 4% acetic acid solution ≤ 0.04
- Lead (calculated as Pb), mg/L in 4% acetic acid soaking solution ≤ 1.0

360-degree rotating base
Cordless design

Permanent stainless steel filter screen filters scale more hygienically

Automatic power-off function when water boils

Waterless anti-dry burning function, overheat protection function

Safe and durable, Clean and hygienic. Resistant to falling, collision, acid and alkali, Environmentally friendly coating, beautiful and fingerprint-resistant

Keep silver from tarnishing

After polishing, seal silverware in vacuum bags. It can be laid flat and even packaged in individual place settings. When you want to set a beautiful table, just open the bags.

Secure important documents

Protect important papers like birth certificates, contracts and passports by vacuum sealing them in vacuum bags.

Keep your gear dry outdoors

Vacuum seal your maps, compasses and even cell phones for trips to the beach, lake or campsite without fear of getting them wet or dirty.

Avoid leaky liquids in your suitcase

When you travel, vacuum seal liquids like shampoo, moisturizers, mouthwash and more in a vacuum bag. No more leaks!

Biodegradable Vacuum Sealer Bag/Roll

Until now, the vacuuming process always produced plastic waste. This is now a thing of the past! The unique compostable vacuum films biodegrade on composting plants according to EN13432. Biodegradable vacuum bags can be degraded by 76% in 90 days and 90% in 180 days, they have higher barrier for Oxygen.

Breakfast just got better

Get your favourite wake-up beverage quickly and easily every morning, with elegant style and impeccable performance. Sustainably designed with 100% Post consuming Recycled plastics** and energy-efficient features for a small step to a greener future.

Help us put virgin plastics to rest with a Breakfast set made from used post consuming recycled plastic. Used more virgin plastic can end up polluting the water and damaging our nature.
But it does not need to be that way. In fact, Re-use can become a resource – post consuming recycled plastics. With this breakthrough innovation, We aim to use less plastics made from fossil fuels and instead rely on what we already have.

By using this post consuming recycled plastic in our Eco Conscious Breakfast Set we contribute to the reduction of CO2 emissions by 21%**, Using less and reusing more, as part of our plan that's built to last.

Made for any home

With our collection's modern and minimalistic design, sustainability never looked so stylish. Our nature-inspired range uses calm colors and natural materials and finishes that will look great in any kitchen.

Made to perform

Make every morning fast and efficient. Save time and limit your waste in the kitchen with the Homeart Eco Conscious edition.

Recycled materials

Believe it or not, but we convert used post consuming recycled into post consuming recycled plastics. The speckles on our products are little imperfections created by this process. How cool is that!

The world's first breakfast set made with 100% post consuming recycled plastics* from used post consuming recycled.

Thermoblock heating system

S/S heater tube inside, water run inside the S/S tube ;

Against normal Alloy boiler, thermoblock better for:
- **S/S tube:** more food contact safety and durable.
- **Work with fresh running water.**
  Little water stayed inside heater from last usage
- **Faster heating:**
  coffee brewing: only 40 seconds
  continuous and steady steam force supply

By setting a period time at a higher temperature and a period of time at a lower temperature, you can speed up the drying process! With the perfect combination of high-low temperature settings, you can maintain the food's low temperature to preserve beneficial enzymes but speed up the process of drying.

IC 700 Electronic Wine Opener
- Cordless simple push-button operation electronic opener.
- USB overcharging protection technology.
- Opens up to 120 bottles on a single charge.
- Foil cutter for easily removing seals.
- Classic and sophisticated Patented Design.

IC 702 Electronic Wine Opener
- Remove corks with the touch of a button.
- USB rechargeable.
- Classical marbel base.
- Works on all types of cork including synthetic.
- Product size:Φ47x194mm.
- Base size: 68x68x27mm.

IC 701 Electronic Wine Opener
- Cordless simple push-button operation electronic opener.
- USB rechargeable.
- Portable size, easy to carry.
- Product size:Φ47x194mm.
- Base size: 63x57x35mm.
- Exquisite surface texture.

IC 703 Electronic Wine Opener
- Remove corks with the touch of a button.
- Stainless steel construction.
- Removable batteries, powered by AA battery*4.
- Works on all types of cork including synthetic.

IC 6018 Meat Thermometer
- Quick and accurate temperature readout.
- Back light ON/OFF options.
- °C/°F conversion.
- Temperatue range:0-300°C.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.

IC 6019 Meat Thermometer
- Quick and accurate temperature readout.
- °C/°F conversion.
- Temperatue range:-50°C-300°C.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.

IC 6020 Meat Thermometer
- Temperatue range: 0-300°C
- °C/°F conversion.
- Auto-off feature.
- Pivoting display for best viewable angle.

IC 6022 Meat Thermometer
- Quick and accurate temperature readout.
- Back light ON/OFF options.
- IPX7 Waterproof.
- °C/°F conversion.
- Temperatue range:-50°C-300°C.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.

IC 6011 Bluetooth Connected BBQ Thermometer
- Can connect with your phone via App.
- Monitoring the target temperure with your phone.
- Bluetooth supported. Range up to 50 meters.
- Recommended menu with selectable doneness.
- Customized target temperatures.
- Alerts you via voice alert, vibration or sounds.
- Includes 2 probes so you can track two foods at once
- Wires wrap around probe handles to keep things tidy
- Magnetic base sticks to your grill and holds the screen at the perfect viewing angle.

IC6016 Digital BBQ Thermometer
- Quick and accurate temperature readout.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.
- °C/°F conversion.
- Temperatue range:-50°C-300°C.

IC 6017 Dual Probes Meat Thermometer
- Fashionable design.
- Highly Accurate.
- Super-fast instant read meat thermometer.
- Preset food list and temperature and alarm.
- Customized food list and temperature and alarm.

IC 6018 Meat Thermometer

- Quick and accurate temperature readout.
- Back light ON/OFF options.
- °C/°F conversion.
- Temperatue range:0-300°C.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.

- Data hold feature,enables the user to temporarily hold the digital reading on the screen.

IC6029 Rechargeable BBQ Thermometer

- Dual Temperature Display with one removeable wired probe and one foldable probe.
- Temperature range: 0-300°C.
- Back light ON/OFF options.
- 0-180 degree auto digit rotating display.
- Built in rechargable lithium battery with Type C charging port.
- Data hold feature enables the user to temporarily hold the digital reading on the screen.
- Release the foldable probe to power on and fold it to power off.

IC6030 Digital BBQ Thermometer

- Quick and accurate temperature readout.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.
- Back light ON/OFF options.
- °C/°F conversion.
- Temperatue range:0-300°C.

TP 01S Meat Thermometer

- Quick and accurate temperature readout.
- Data hold feature,enables the user to temporarily hold the digital reading on the screen.
- Back light ON/OFF options.
- °C/°F conversion.
- Temperatue range:0-300°C.

TP 08 Wireless Meat Thermometer

- Fashionable design.
- Highly Accurate.
- Super-fast instant read meat thermometer.
- Preset food list and temperature and alarm.
- Customized food list and temperature and alarm.

GRAVITY PEPPER MILL

The durable ceramic grinder activates automatically once the grinder is titled to a 45-Degree angle. The grinder is conveniently located on the top and has a border around the rim so that your table is free of salt and pepper dust once you finish your grinding.
No button, no effort, no mess.
6xAAA battery operated.
The powerful ceramic grinders are perfect for salt rocks and peppercorns alike.
An easy to turn fine to coarse adjustment knob allows you to quickly change our grinding to the desired size.

WHY CHOOSE THIS PRODUCT?

Ceramic Grinding Burr

Low temperature grinding
ensures better maintain taste

Ground Coffee Container

Food grade glass material, visible grinding amount
Easy to clean because of reduction of electrostatic adsorption

X960 MODEL
PRODUCT FEATURES

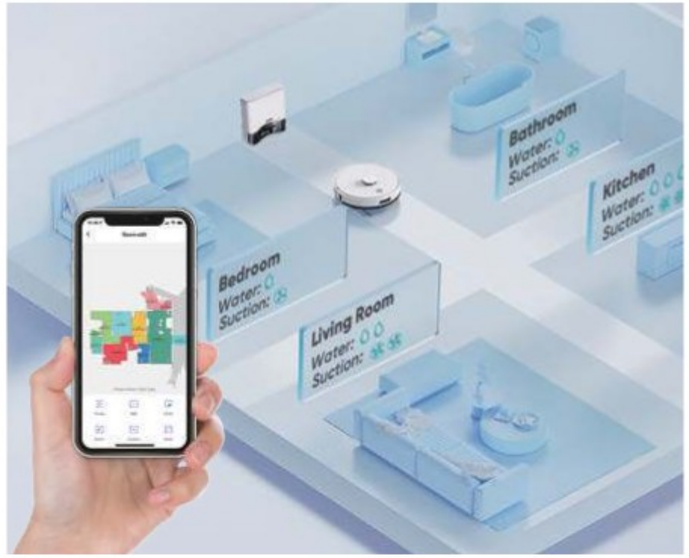

1. Laser navigation & gyroscope navigation, robot will clean the floors methodically and intelligently.
2. 2-in-1 dust & water tank.
3. Memory function let robot resume to clean from the area where it stops after auto recharging.
4. Stronger suction power, the spot mode is up to 3000Pa.
5. WIFI function, robot can be connected via APP.
6. Mop&vacuum,sweep at the same time.

DUST STATION FEATURES

1. Auto charging for robot and show the charging status.
2. 3.5L Large disposable dust bag.
3. Max suction power 20Kpa, max air flow 2.3m³/min.

Robotic Vacuum Cleaner

- **Clean Smarter with LiDAR and Gyro Navigation**

Extremely creates precise 5 maps that can be customized to clean in different houses. You can operate on app to customize the cleaning mode, features, area to go or forbidden to go, water quantity, cleaning times and scheduling.

- **10-Weeks of Hands-Free Self-Empty Cleaning**

The Self-Empty Dock automatically empties the dustbin after each cleanup, so you don't have to do it manually or frequently. Its 3.5L dust bag can hold up to 10 weeks of dirt.

- **Clean more efficiently with powerful 3000Pa Suction**

With an incredible maximum suction power of 3000 Pa, the X960 easily lifts debris and pet hair from floors and drags it out from deep inside carpets.

1. Noble display panel with mould-in mould plastic inject technology

2. Front view

3. Easy to move along with rolling casters

4. Comes with power cord hook

Characteristic

- 9,000/10,000/12,000/14,000 BTU/h cooling capacity.
- Environmental-friendly refrigerant R410a/R290/R32.
- Ideal for office and home use as an air conditioner, a fan
- or a dehumidifier.
- 3-speed control accessible using panel or remote control.
- High energy efficiency. EER: A class
- Horizontal swing louvers for enhanced cooling performance.
- Virtually no installation necessary.
- Up to 24 hours programmable timer.
- Self-diagnose capability and water-full safety alarm.
- Easy to move aroung with rolling casters.
- Extensible exhaust hose(up to 1.5 meters).
- WIFI function is optional

KM Series pellet stove
Top Feeder System

KT/GT Series pellet stove
Bottom Feeder System

THERE ARE A NUMBER OF GREAT BENEFITS TO BE ENJOYED WHEN YOU CHOOSE A PELLET BURNING STOVE OVER ANY OTHER FUEL BURNING APPLIANCE:

CLEAN– Burning pellets produces far less arbon emissions in comparison to other fuels including oil, coal and gas,thereby reducing your carbon footprint.

EFFICIENT – Wood pellet stoves are becoming more and more energy efficient. Some of the more advanced systems have an efficiency rate of up to 95%, which is better than any alternative fuel burning appliance. Wood pellets are considerably more economical than either oil or gas when producing the same heat output.

SIMPLE TO USE – Opting for pellets also means convenience and ease of use. They can be bought in convenient bags, they are not messy and produce less ash than wood. Finally, pellet stoves have the great advantage of being able to operate automatically, adjusting switching on and off according to one's needs.

Clean, Efficient, User-friendly Wood Pellet Stoves
