

KATALÓGUS

500+ válogatott kínai beszállító

TAKARÍTÓ ESZKÖZÖK - CLEANING

2024.05.
v.1.0.

Milyen beszállítók termékeit tartalmazza a Kimport katalógus?

500+ válogatott kínai gyártó termékeiből összeállított termékkatalógus. **A beszállítók nem az aktív vagy korábbi ügyfeleink beszállítói**, hanem a következő nagyvállalatok (aktív vagy korábbi) beszállítói (kékre kattintva a forrás): [LIDL](#) (DE), [ALDI](#) (DE), [KMART](#) (AU), [JOHN LEWIS](#) (UK)

A forrásokon összesen közel 3000 kínai gyártó cégnevét találjuk. Ezen cégek hátterét leellenőriztük ([így](#)), és az 1000 általunk legjobbnak (legkisebb kockázat) ítélt vállalattal felvettük a kapcsolatot. Ezek közül 513 volt nyitott az együttműködésre. Ezen válogatott beszállítók termékeit tartalmazza ez és a többi Kimport katalógus.

Ár? MOQ? Gyártási idő? CE?

A termékek az esetek 99%-ában nincsenek készleten! A gyártási idő beszállítónként és termékcsopontonként változik! A rendelhető minimum mennyiségek beszállítónként és termékcsopontonként eltérőek, az árak pedig a gyártási kapacitás, alapanyag árak és árfolyam (USD/RMB) ingadozása miatt változnak, ezért minden esetben egyedi ajánlatot kell kérni! A termékek nagy részéhez van érvényes CE certifikát, de nem minden esetben, viszont megfelelnek a CE sztenderdeknek. Egyes esetekben elképzelhető, hogy külön kell CE-t csináltatni!

Szállítás?

Korlátlan mennyiségű beszállítótól (minden oldalon bal alul található az adott beszállító kódja) lehet rendelni és konszolidáljuk a rendelést úgy, hogy egy (vagy minél kevesebb) rendelésként lehessen kezelni az importfolyamat során. Segíti az ügymenetet, amennyiben egy beszállítótól minél több terméket választunk, és összesen minél kevesebb különböző beszállítótól vásárolunk. Shenzhen, Ningbo, Qingdao, Jinhua és Xi'an városokban is rendelkezünk olyan raktárral ahol az áruk konszolidációját és feladását, igény szerint további címkézési műveleteket végre tudunk hajtani.

Mennyibe kerül ez?

Dijunk az SKU-k száma, áruérték és a kiválasztott beszállítók mennyiségétől függ, jellemzően az áruérték 3-6%-a.

Vámkezelésben, betarifálásban, előzetes szállítási díj kalkulációban is állunk rendelkezésükre, tehát segítünk megállapítani az egy termékre eső megközelítő beszerzési árat (a szállítási díjak előzetesen nem határozhatóak meg 100% pontossággal).

Árajánlatkéréshez kérjük megadni a beszállító kódját és amennyiben van a termékkép mellett termékkód, úgy azt is megjelölni!
